GSM Network Technology (10 Days)

Course Introduction:
A 10-day Training Program to provide participants with a strong understanding of Global System for Mobile (GSM) technology, and with the basic knowledge, tools, and methods to plan, design, deploy, and manage GSM networks.

Course Objectives:
- Explain the principles of telecommunication services supported by a GSM Public Land Mobile Network (PLMN).
- Provide an understanding of all structural and operational aspects of GSM networks.
- Present the technical and technological aspects, basics, and fundamental techniques of a second-generation mobile system (2G), with the different approaches and methods used in the planning.

Who Should Attend?
- Telecommunications managers and personnel responsible for the design, planning, deployment, and management of GSM networks.
- Managers looking to complement their skill-set by gaining a good understanding of GSM network technology.

Assessment Method & Documentation
Attendance will be taken via the Averest attendance sheet at the beginning of every training day. Assessment is kept informal throughout the learning process until the final day, thus providing valuable opportunities for learning. Some assessments are done in groups providing the opportunity for collaboration and team problem solving, self-assessment is used to guide learner’s knowledge of their learning.

The course itself, instructor presentation and overall experience are also assessed by the participants through the attached feedback form, the results will be shared with your company.
Course Outline
Our Methodology

Averest’s Training Methodology

The effort is focused on participants to complete the course gaining maximum learning benefits and outcomes. We consider the mindset from the beginning to end, incorporating the growth mind-set theory so attendees are walking away feeling inspired, empowered and have an increasingly positive attitude towards their role with the newly acquired knowledge.

We consider company culture, attendee knowledge and attitudes.

We emphasise on keeping participants engaged by enriching the training with quality audio-visuals, opportunities for practical learning, reflective practices, chances to work in teams with their peers and the opportunity for valuable discussions with peers, Averest representatives and instructor. We ensure there are relevant activities, case studies and examples to frame the learning.

We finally provide an opportunity for assessment and consistent feedback and reflection throughout the learning process, therefore keeping learners aware of their place on their learning journey.
